

Brentwood Industries Inc.

Brentwood Industries, founded in 1965, boasts a history of excellence in the design, engineering, and manufacturing of high-quality thermoformed plastic products.

The company is a leading supplier for manufacturing customers in the cooling tower, water/waste water, transportation, agricultural, battery, medical, lawn and garden, construction, and electronics industries.

Business Challenges

- Retain leadership in key customer segments
- Support growth while keeping margins strong
- Improve responsiveness to customer inquiries
- Reduce scrap rates and order cycle time

Solution - Upgrade with Infor SyteLine

Why Infor?

- Company leaders chose to upgrade using a trusted solution without adding risk.
- Unique capabilities provided by the SyteLine Planning and Scheduling engine
- Product stability
- Proven ability to address changing customer requirements
- Ease of upgrade across six domestic and two international locations

“Five minutes after an event on the shop floor, we're able to make decisions based on the data.”

Kenneth Kemp, *IT Manager*
Brentwood Industries
