

Gloucester Engineering

Gloucester Engineering Co. (GEC) has been a global leader in advancing quality and production limits in the plastics extrusion and converting market

GEC manufactures equipment from its headquarters in Gloucester, MA, and through its joint-venture company in Damman, India.

Business Challenges

- Easily manage CRM, sales, financials, and mixed mode manufacturing
- Gain visibility across all four business units
- Avoid application and server compatibility issues, and support growth without increasing IT costs

Why Infor?

Automate and manage key business processes such as inventory forecasting while minimizing error-prone manual steps

Benefits Achieved

- Saved over \$108,000 in annual direct payroll costs, \$34,000 in annual software and service costs, and \$40,000 annually from less leakage through credit and payment
- Reduced risk of lost data and hardware issues by having database and software maintenance performed in the cloud
- Ensured applications are always current and synchronized with hardware, eliminating the need to update servers or resolve compatibility issues
